PROFESSIONAL SUMMARY

Developer specialised in **Java, Spring Boot and Angular**, with experience **since 2023** on enterprise projects for **Iberdrola and Orange** through NTT DATA. I evolve a Java EE/Spring application with **more than 15 years in production and over 600 users**, from the interface to the Oracle database. I migrated the authentication of several applications to **Azure Active Directory with MFA** and built micro-frontends in **Angular**. Higher Technician Diplomas in Web and Cross-Platform Application Development, with final projects graded 10/10 and 9/10.

WORK EXPERIENCE

Full Stack Developer | NTT DATA · Client: Iberdrola — 07/2024 – Present
Alicante · Remote

- Development and evolutive maintenance of a Java EE/Spring application with more than 15 years in production and over 600 users, covering frontend (JavaScript/TypeScript), backend (Java, Spring) and Oracle database.
- Maintenance of the Android app of the same application.
- Implementation of the login migration of several web applications to Azure Active Directory with MFA.
- Resolution of production incidents and bugs with root cause analysis, and fixing of vulnerabilities.
- Participation in deployments and CI/CD pipelines with Jenkins and GitHub Actions.
- Test design and execution with Xray; feature development from Jira user stories written in Gherkin (BDD), under Agile/Scrum.
- Unit tests with JUnit and Jasmine, and fixing of the issues detected by SonarQube.
- Technical and architecture documentation in Confluence and Enterprise Architect; direct communication with the client within a team of more than 30 people.

Frontend Developer | NTT DATA · Client: Orange — 11/2023 – 07/2024
Alicante · Remote

- Development on a large-scale corporate application with a micro-frontend architecture using Module Federation, with modules in different Angular versions, from AngularJS to Angular 17.
- Implementation of a BFF (Backend for Frontend) layer in Node.js that orchestrates calls to several backend services.
- Management of developments in Jira in direct contact with the Orange team.

Full Stack Developer | Centauro Rent a Car — 04/2023 – 07/2023
Benidorm

- Development of a web and mobile application with React and React Native, with a .NET and Entity Framework backend.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, C#, Dart
Backend: Spring, Spring Boot, Node.js, .NET / Entity Framework
Frontend and mobile: Angular, AngularJS, React, React Native, Flutter (Android and Windows)
Databases: Oracle, MariaDB / MySQL, SQLite, SQL Server, MongoDB
Security and authentication: Spring Security, JWT, Azure Active Directory, MFA, OAuth 2.0 / SSO
CI/CD and tools: Git, Jenkins, GitHub Actions, JUnit, Jasmine, SonarQube, Xray, Jira, Confluence, Enterprise Architect
Architecture and methodologies: BFF, Micro-Frontends, Module Federation, Agile/Scrum, BDD/Gherkin

EDUCATION

Higher Technician Diploma in Cross-Platform Application Development (DAM) · IES Pere María Orts i Bosch — 2023 – 2024
Final project: Modelia, cross-platform store with 3D and augmented reality, built with Flutter and Spring Boot. Grade: 9/10.

Higher Technician Diploma in Web Application Development (DAW) · IES Pere María Orts i Bosch — 2021 – 2023
Final project: MHCars, car rental and sales website with a 3D showroom, built with React and ASP.NET Core. Grade: 10/10.

LANGUAGES

Spanish: Native · **English:** B2 (fluent technical reading and professional communication)
